Excellence / Skills

During the first two years there is a strong emphasis on bringing your technical skills to the highest standards. You will also learn basics in Graphic Design, Audio-visual skills and Interactive Media Design. In the Civil Society Lab you develop your research and presentation skills. Excellent: the Accreditation Organisation of the Netherlands and Flanders NVAO valued our BA Photography with the highest grade!

Eddo Hartmann — Second year group inspired by the work of Gregory Crewdson

International / Awards

Educated by the best of professional photographers, you benefit from an international network and participate in fieldtrips and internships abroad. We provide international exchanges with quality partner institutions. The work of alumni stands out in international publications, exhibitions and awards. All teaching is done in English as many of your peers and teachers come from abroad.

Professional / Research

We educate you to become an outstanding photographer and true author of your work. Research is the base of every project. There is a strong emphasis on audience engagement and entrepreneurial skills; you communicate your work on different platforms. As a KABK graduate you will know how to connect with the professional field and build, maintain and develop your own photography practice.

“We prepare students for an international career with all its potential pitfalls and networked intricacies.”

Rob Hornstra – Author of The Sochi Project and co-head of the Photography Department

Royal / Rebellious

Founded in 1682, the Royal Academy of Art, The Hague (KABK) is the oldest academy in The Netherlands. The Photography Department's focus and expertise is expressed in its specialisations which include conceptual documentary, fashion and fiction. As a KABK graduate you will contribute to defining the photographic field of tomorrow.
