

Open Days

Royal
Academy of Art
The Hague

Programme

Welcome to

the fab!

Dreaming of studying art or design? You're in the right place. Explore our academy, visit the ceramics, wood, and photography workshops, or one of the others, and imagine yourself creating, experimenting, and learning. Talk to students, teachers, and alumni, and get a glimpse of what your future here could look like.

About the

campaign

This Open Day's symbols, the starfish and the star, represent you as a prospective student at KABK. The starfish stands for resilience and finding your own way as you start your studies at KABK, whether you are a bachelor's or preparatory student. The star symbolises exploration and direction, a guide for those deepening their practice in the master's programmes.
