# Connecting to the 'eduroam' network on Android using TTLS

## Before you begin

We offer this manual to you as an extra service. This manual is based on Android 5 on Samsung S5 device and has been tested to be working.

1. Go to the **WIFI** menu (Menu button > WIFI)  
Tap **Eduroam**.

2. Tap be sure that **EAP-Method: PEAP** is selected

3. Enter your credentials: [userid@kabk.nl](mailto:user@kabk.nl) or [userid@student.kabk.nl](mailto:user@student.kabk.nl) and your password. Leave Anonymous identity blank  
Tap **Connect**
