

How to check your schedule on your smartphone or tablet

ASIMUT provides a dedicated mobile interface, next to the standard desktop interface available through the KABK website. The reason for this is that the desktop website has been designed with a full size computer screen in mind, instead of smaller screens from smartphones and tablets.

In order to go to the mobile website, simply start the browser on your phone or tablet and type in the following URL:

<https://kabk.asimut.net/mobile>

This URL will take you directly to the mobile interface. Of course, in order to check your personal schedule, you must log in with the same login name and password for the desktop interface. After you have logged in, you will see the mobile interface. Now you can check your personal schedule or book a room on the go, e.g. when travelling to the KABK.
